- Energy
- Public Power
- Electric and Hydroelectric

- Federal Regulatory Energy Commission

## Education

J.D., George Mason University School of Law (2000)

B.S., University of Kansas (1992)

## Biography

Ms. Roby has over 15 years of electric utility experience practicing before the Federal Energy Regulatory Commission (FERC), state utility commissions, and in related court proceedings. Much of Ms. Roby's work focuses on the generation and transmission of electric power, investment in transmission infrastructure, development of energy markets, and RTOs. Her clients include state utility commissions, individual municipal electric systems, municipal agencies, and electric generation and transmission cooperatives throughout the United States for which she provides legal advice and litigation services on a variety of energy-related issues.

Ms. Roby is active in project development, including new hydroelectric projects and other renewable resources. Much of this work involves state and federal agency interaction concerning environmental and project operations compliance, the development of project participation agreements, and power purchase and sale agreements. She is also actively engaged in matters involving compliance with reliability standards developed by the North American Electric Reliability Corporation (NERC).

Ms. Roby is listed as a *Washington D.C. Super Lawyer* in the area of Energy and Natural Resources.

## Admissions

### Admitted to Practice

- District of Columbia (2001)

### Court Admission

- U.S. Court of Appeals, District of Columbia Circuit (2001)
- U.S. Court of Appeals, Seventh Circuit
- U.S. Court of Appeals, Eighth Circuit
- U.S. Court of Appeals, Tenth Circuit (2016)

## Media and Presentations

### Articles

- Co-author, "[In the wake of Hughes v. Talen Energy, might states turn to CHP to help meet future energy demand?](#)," *District Energy Magazine* (2016)
- Co-author, "[Cybersecurity and District Energy Resilience](#)," *District Energy Magazine* (2014)
